DHR Health Hematology And Medical Oncology Fellowship – Block Schedule – Academic Year 2026-2027

Site 1 - DHR Health

Site 2 – Methodist San Antonio

Notes:

1. Inpatient Consult rotation – combined hematology and oncology; longitudinal experience comprised of inpatient consulting / rounding in the morning followed by outpatient clinics in the afternoon to provide the community oncology setting of the fellowship program.
2. Outpatient Clinics is various oncology clinics focused on a broad spectrum of pathology, including benign and malignant hematology, breast, sarcoma, gastrointestinal, lung, liver, pancreatic, head and neck cancer, prostate/genitourinary, gynecological oncology, melanoma and inherited diseases. This experience is longitudinal, allowing our fellows to follow the patient from diagnosis through the treatment continuum.
3. Continuity Clinic is one half-day per week on Friday mornings.
4. Electives / Individualized Educational Experiences (IEEs) include any of the core rotations (including focused specialty clinics, i.e. breast clinic) plus: dermatology/pathology, research, quality improvement/patient safety, and hospice and palliative medicine
5. All electives/IEEs are located in DHR Health (Site 1 in ADS)
6. Vacation may be taken during all rotations; fellows will be given 15 vacation days per year and must follow program request process
